Hi Rosemary,

Attached please find a document with ERG's suggestions (shown in track changes and Word comment bubbles) for the FRN text. Some of my edits and comments address options for EPA public hearings that have been used in prior EPA virtual hearings in recent months in case you would like to consider them for this hearing. Please note that all of my edits and comments were recorded by Word as being made by the "Author" but were in fact made by me.

As noted in one of my comments, we cannot provide the URL for the registration page until we know the dates and times of the public hearings. My comment explains how this is typically handled in the FRN. Please do provide the final hearing dates and times to us as soon as you have them.

Don't hesitate to be in touch if you have any questions or would like to discuss any of the edits.

Thanks,

Jan

Joe, Jan, Lauren –

Attached is a clean but draft version of the Federal Register Notice, minus the background section, for Florida assumption. Please limit circulation to those who need to work with it for adding details related to Tasks 1 & 2, as it's still a work in progress. I spared you all the editing marks—we know there are things that need addressing like consistent capitalization—but as discussed last week, this is where we need things like a URL for registration and webinar hosting details.

Thank you,  
Rosemary
